

如果目录中未能找到满足您使用要求的滑环产品, 我公司还可同时为客户提供量身定制的产品跟踪设计服务, 满足客户不同的产品需求。例如: 超多通路滑环, 超大尺寸滑环, 超高速滑环, 异形滑环, 光纤与电液气组合滑环和能适应超恶劣环境下使用的滑环。

We specialize in Customized solutions, Current our model have over 6000, and over 80% model customized with customer request and base on technology and full experience, our slip ring solution including traditionary carbon brush, gold wire contact, gold fiber brush contact, no contact transmit, each solution application depend on the customer real application request with economically, high quality and reliability

- 屏蔽导线
- 密封IP65
- 高速数字信号传输, 可达500M Bite/s
- 高速滑环, 转速可达20,000 rpm
- 强震动环境应用
- 高电压, 大电流, 电流可达1000A/路
- 海洋环境应用
- 防爆滑环
- 光纤滑环
- 液压滑环
- 通讯信号Rs485,422, Canbus, Profibus, Ethernet, EtherCAT, Fast USB, Siemens communication protocol.
- Standard connectors connection (with your system connection more convenient)
- High frequency slip ring, can pass through frequency up to 500 MHz signal
- Signal line, coaxial line, power and signal line combination
- Thermocouple signal
- Large size slip ring, inner diameter up to 2m
- Weak signal, strain signal
- High temperature slip ring (can withstand 300°C)
- Multi-channel, up to 800 channels
- Coaxial high frequency slip ring
- Shielded cables
- Connectors
- Environmentally Sealed
- Frequencies up to 500 MHz
- High-speed data transmission for all cable types
- Signal, Coax, and Power combinations
- Speeds up to 20,000 rpm
- Thermocouples
- Shock, Vibration, and Temperature Qualified
- Pneumatic/Hydraulic Capability
- High temperature---up to 250C
- Large size slip ring---up to 2 m
- High Voltage & large Current
- Communication signal, Rs485,422, Canbus, Profibus, Ethernet, EtherCAT, Fast USB, Siemens communication protocol...
- Fiber Rotary Joint
- Coaxial Rotary Joint
- Media Rotary Union
